

Katie Pool

Hi Bruins, I'm **Kate Pool** and I'm a sophomore running for **General Representative** to help our school! As a business economics major, I'll work to keep costs down for students and make education at UCLA, the #1 public university, affordable for all. This year the extra student fees (on top of tuition) are over \$700 a quarter and they keep going up. This is too much! We are charged \$2100 a year for services that are underutilized and should be funded directly by the university. This adds up to \$8400 for 4 years and over \$10,500 for 5th year seniors. I am seeking your vote in **lowering these unreasonable student fees** and making USAC fiscally responsible, while still offering a diverse and comprehensive set of programs and opportunities for all students. I'll also work to **improve dining services** with more flexible meal vouchers, mobile ordering, and longer hours. I'll advocate for more jobs on campus with fair compensation and **increase the job/research recruitment** and placement services for summer internships and career opportunities after graduation. And finally, with your vote, I'll make UCLA an even **safer campus** by addressing steps to prevent assault, harassment, and theft.

Platform

Reduce student costs

- Cut student fees by eliminating waste and underutilized services
- Provide menu of student services with associated costs

Improve campus services

- Provide ASUCLA vouchers distribution in Ackerman
- Allow premium meal plan usage of vouchers through end of quarter
- Extend dining hours
- Bring back 5 R meal plan for off-campus students
- Modify the current distribution of Den Pass Basketball tickets

Increase job/research opportunities:

- Provide a centralized database of available research opportunities
- Expand summer internship and permanent job opportunities for all majors
- Increase on-campus networking events with diverse set of industry professionals
- Hold monthly research forums with industry representatives

Keep UCLA safe

- Identify improvements for campus safety and theft prevention
- Provide in person safety and assault prevention training
- Increase late night transportation around the UCLA campus and Westwood

Qualifications

- My classes in business economics and my work experience in finance at UCLA's David Geffen School of Medicine give me the tools necessary to work on providing the best UCLA student experience at the lowest cost.
- From my background and interests that span North and South campus, I will prioritize providing accessible job and research opportunities for all UCLA majors.
- With my bridge-building skills, I'll focus on uniting diverse campus communities while addressing unique needs and interests of individuals and equity groups.
