

Jean Pierre Etcheverry

Hello, my name is Jean Pierre and I'm running for the office of General Representative. As a freshman, I have had a wonderful first year of getting to know our beautiful school and campus. Seeing all the different aspects of our campus and the issues that we face, such as Fall Quarter's TA strike, has inspired me to run for USAC to be able to help find solutions for these problems and ways to make UCLA better. I have also served as a Community Representative for my floor in Rieber Hall and I take great pride and joy in hearing community proposals and evaluating their potential for success and student involvement while discussing and working with other representatives. If elected, I would always seek your input and opinion to understand the position of the student body on all issues. I would greatly appreciate your vote for General Representative.

Platform

Connection with Campus Leadership:

- I will engage the Council with UCLA leadership including **Chancellor Gene Block, Provost Darnell Hunt, and others** to coordinate joint efforts to address the issues facing UCLA.
- I will also seek to arrange for regular **town hall style meetings** for students to **make their voices heard** directly to University Leadership.

Communication:

- I will regularly **meet** with as many student- and faculty-led **clubs and organizations** as possible to connect with all aspects of **life on campus**.

Popular Participation:

- I will seek to have **regular polls** taken of the student body regarding issues before the Council so that we have a better understanding of and connection with the **UCLA collective will**.

Qualifications

- **Vast experience** - I have been elected to student council positions **8 times** in my life, including **3 times as school president** and **3 times as class president**.
- Through these experiences and others, including sports and club activities, I have learned to **listen to and work with others** to achieve results.
