

Aaron Yamin

UCLA needs new leadership that represents the voice of its students. The Campus Events Commissioner's most prominent role is to run **Bruinbash**. My goal is to bring **well-known artists to Bruinbash to make the event more desirable for students**. This also means providing **access for ALL STUDENTS to receive a ticket** to the event. Additionally, there is nothing stopping the Events Commission from hosting more of these events, so I plan to create more concert opportunities at the start of **Winter and Spring quarter**. This way, **all three quarters** will begin on an exciting note. Furthermore, I will create an **inclusive environment** where all students feel welcome to **share their ideas**. I plan on creating a direct **submission form** where students can **voice** their campus event ideas, allowing for more popular events. In addition, America's top public university should host **events with industry experts**, in which students can **network with high-level companies to expand their interests**. These events will be widely publicized, so **all students** have the opportunity to attend, utilizing campus emails and reminders so everyone is **kept up to date** on on-campus events. **Vote AARON YAMIN for Campus Events Commissioner. VOTE YAMIN HE'S ON YOUR TEAM!**
